

1 **WHAT IS CLAIMED IS:**

2 1. A support stand assembly for a computer desk comprising:
3 a base (12) with a top face, a front end, and a rear end and having
4 multiple margin flanges (125) formed on the top face near the front end;
5 a column (11) detachably mounted on the base (12); and
6 a headphone mount (10) detachably mounted on the column (11) and
7 having a top face and a transversal recess (102) defined in the top face of the
8 headphone mount.

9 2. The support stand assembly as claimed in claim 1, wherein the
10 base (12) has at least one threaded hole (121) defined in the top face near the
11 rear end; and

12 the column (11) has two threaded ends (111), one of the threaded
13 ends engages with one of the at least one threaded holes in the base (12).

14 3. The support stand assembly as claimed in claim 2, wherein
15 support stand assembly further has a notepaper box (30) with a first pillar
16 (301) attached to the base (12) and a writing instrument container (31) with a
17 second pillar (311) attached to the base (12);

18 the base (12) has three threaded holes, a first one of the three
19 threaded holes engages with the column (11) with the headphone mount (10),
20 a second one of the three threaded holes engages with the first pillar (301) of
21 the notepaper box (30), and a third one of the three threaded holes engages
22 with the second pillar (311) of the writing instrument container (31).

23 4. The support stand assembly as claimed in claim 2, wherein the
24 headphone mount (10) further has a bottom face and a threaded hole defined

1 in the bottom face to engage with the other one of the threaded ends (111) of
2 the column (11).

3 5. The support stand assembly as claimed in claim 1, wherein
4 support stand assembly further has an extension rod (13) detachably
5 connected between the column (11) and the headphone mount (10).
